Cosmic Angel Ceiling

DESIGN BY:

Ross Lovegrove
2009

MATERIALS:

ABS, aluminium

DESCRIPTION:

"My concept way to freeze a moment that seemed to be created by air rolling over a thin sheet , achieving a very natural flow and rhythm in the lightweight sculptural skin. Ultimately it appears to be suspended in anti gravity on a cushion of air...like the cosmos in the complex forms and geometries that seem to defy explanation and create a sense of infinity."
Materials: body lamp - reflector made of thermoplastic material; die-cast aluminium lighting units; upper diffuser in opal methacrylate.
